Objective

I am a motivated and detail-oriented Software Engineering student with a strong foundation in mobile and web development, networking, and basic cybersecurity. I have hands-on experience providing IT support and enjoy solving technical problems efficiently. I'm eager to apply my skills in a real-world setting, contribute to meaningful projects, and continue growing as a developer and technology professional.

Education

University of Eastern Africa, Baraton	2024 – Present.
--	------------------------

B.Sc. BBIT

Power Learn Project	2025 - Present
----------------------------	-----------------------

Software engineering(certification)

Shofco Skills and Training Centre	2020.
--	--------------

Computer packages (Microsoft Office apps).

Elite Visionary High School	2016 – 219.
------------------------------------	--------------------

Kenya Certificate of Secondary Education (KCSE).

KAG Olympic Education Centre	2008 – 2015.
-------------------------------------	---------------------

Kenya Certificate of Primary Education (KCPE).

Certifications

- Certificate of participation in UEAB hackathon
 - Google IT support certificate
-

UEAB Computer Laboratory	2025 Jan – Apr.
---------------------------------	------------------------

- Assisted students and faculty in troubleshooting hardware and software issues in the computer lab.
- Maintain and install essential software and operating systems.
- Guide fellow students through programming assignments, networking, and database management.

Cyber attendant Zomo Technologies

2022 Aug- Dec.

- Assisted customers with internet browsing, printing, and document formatting.
- Troubleshoot and maintained computer systems, printers, and network connections.
- Helped clients with basic graphic design and document editing tasks.

Skills & Abilities

- Programming languages: Javascript, Python, Dart(flutter), C, C#.
- Web Development and Design: javascript, HTML, CSS.
- Mobile App Developer: React, flutter, node js, express js, Rest APIs,
- Networking & IT Support: troubleshooting, system maintenance & network setup.
- Database Management: MSQl, mango DB.
- cybersecurity basics
- Computer Hardware & Peripherals: Installation, maintenance, and repair of desktops, laptops, printers, and scanners.
- Other skills: communication skills, problem solving, management and teamwork.

Projects

Personal portfolio website

- Developed my personal website portfolio using HTML and CSS.

To-Do List App

This is a simple and clean To-Do List web app built using HTML and CSS. It allows users to visually organize tasks in a list format, with a user-friendly interface that focuses on layout and styling. The main goal of this project was to practice building structured interfaces and applying CSS styling techniques.

Calculator App

This is a basic calculator web application built using **HTML** and **CSS**, designed to perform simple arithmetic operations such as addition, subtraction, multiplication, and division. The goal of this project was to practice and demonstrate foundational web development skills including page structure with HTML and styling with CSS.

Extracurricular activities and Leadership

- Member, Bitsa club UEAB – tutor and mentored other students on tech related issues.
- Volunteer at Quality smile Kenya – helped in cleaning, planting trees and educating the society.
